

Printable Ring Size Finder & Measurement Tool

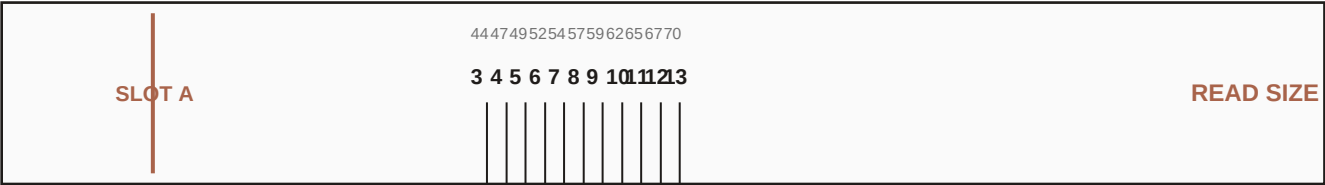

womensfashioneu.com/tools/ring-size-converter/ | Format: US Letter (8.5 x 11 in)

PRINTING & CALIBRATION INSTRUCTIONS:

1. Print at 100% scale (or "Actual Size"). Do NOT select "Fit to Page" or "Shrink to Fit".
2. Take any physical ruler and measure the square on the left.
3. If the square does NOT measure exactly 50 mm across, your printer rescaled the page.
4. In that case, re-check your printer dialog scale settings and print again.
5. Once verified, use Method A (Paper Sizer Strip) or Method B (Ring Placement Circles).

METHOD A: Printable Finger Sizer Strip

METHOD B: Existing Ring Measurement Circles

Place a ring you already own flat over these circles. The inside rim of your ring must match the circle outline.
